## **August 10, 2021: SILVER LAKE BEACH OPERATIONAL UPDATE**

Silver Lake is experiencing the presence of blue-green algae. Although not all blue-green algae are harmful, results of a water test are unable to be turned around before our scheduled closing date so to err on the side of caution, we have made the decision to close the beach for the season as of 2pm on August 10.

After venturing into this season with some unknowns, we'd like to thank our staff for making this year's operation happen and making it successful and thank our patrons for following staff direction and health protocols and having patience and understanding with our phased approach to reopening. May you enjoy the rest of your summer, and all stay safe and healthy.
